

DISPARITIES IN THE USE OF CONSENT SEARCHES BY AGENCY IN 2005

ALPHABETICAL LISTING OF AGENCIES

This table examines how often various agencies subject drivers they stop to consent searches.

HOW TO READ THIS TABLE: Each number in this table represents the number of consent searches conducted per 100 stops, by racial category, in 2005.

The statewide average of consent searches per 100 stops is 2.0. In other words, Texas agencies conducted an average of 2 consent searches per 100 stops.

TABLE 1 NOTES: *The consent search percentage was calculated separately for each agency by dividing the total number of consent searches following a traffic stop for each particular racial group into that racial group's total number of traffic stops.*

Some agencies submitted reports with obvious or potential inaccuracies. Other agencies submitted incomplete data (e.g., required racial data for each Tier 1 category) or data showing that no stops or consent searches were conducted of a particular racial group. As such, this data was not used for comparative analysis and has been designated with an entry of 'x.'

NUMBER OF CONSENT SEARCHES PER 100 STOPS (statewide average = 2 searches per 100 stops)				
Law Enforcement Agency	Anglos	Blacks	Latinos	Agency Average
Abilene Police Department	1.7	2.9	1.9	1.8
